

## **SOCIAL DISTANCING POLICY**

At Drum With Alex we have implemented the below social distancing policy to stop the spread of COVID-19.

We require all students, instructors and other visitors to abide by the below guidance at all times. Failure to do so may result in removal from the session with any future attendance suspended without a refund.

- Before attending a session, please familiarise yourself with the new entrance and exit points at each location
- Any attendees are required to adhere to a minimum of 2 metres social distancing from anybody that they do not live with
- When you are not on your equipment try to ensure you are 2 metres away from the instructor
- Please only leave your equipment area to wash your hands, use the bin, go to the bathroom or if you need medical attention
- Please ensure you have water with you as communal water facilities will not be available at this time
- Please ensure you bring your own drumsticks with you as we will not be allowing students to share drumsticks between them
- Wear a face covering during your session. (if you do not have one, we will have single use, disposable face mask that you can use).
